Total Area
468 km²

GDP per CAP
AND 47.900\$
EU 36.300\$

Connectivity
100% Homes
Optical Fiber
+300MB

Digitalization: The perfect leverage for Andorra resilience

1

Before COVID breakout

(Awareness _)

- Digitalization process on going. Different players and initiatives on place.
- A global national approach and orchestration towards digitalization seems to be required in order to guarantee higher efficiency, effectiveness and cost optimization.
- Government sets up a digital program through a Foundation which will design, deploy and lead a national digital program.
- Availability of public funding to deploy the whole program.
- OECD - Automatic Exchange of Information (AEOI). Andorra, a successful case study.

Automatic Exchange of
Information

OECD

2

During COVID breakout

(Keep on focus_)

- No doubt: Full awareness that Digitalization is a must.
- Awareness that there is no turn back to previous COVID stage. We should step into the new digital paradigm the sooner the better.
- Focus and efforts to speed up digitalization process.
- Public budget reviewed and drastically reduced, not digitalization one.

New law and
regulations passed

5

Boosting new digital habits

82% Teleworking

Public Investment
reduction 2020

-38%

3

After COVID breakout

(New opportunities_)

- Keep on working even harder on digitalization process.
- Searching for new digitalization funding sources
 - European Development Fund (EDF).
 - Council of Europe Development Bank (CEB).
- EU Interoperability digital approach and support.
- New economy enablers:
 - Create a powerful brand around digitalization and open innovation (MiT, Google, etc).
 - Digital Hub – laboratory country based on priority growing sectors.

TIC & New
Technologies

Health and
Wellness

Education

Sports

Digital Hub - Priority growing sectors

Thank you
