

Democracy in a Digital Society

Dr Kristina Reinsalu
Programme Director of e-Democracy
e-Governance Academy, Estonia

Balanced e-Governance

e-GOVERNMENT

User-oriented e-services offered by government

e-DEMOCRACY

- ✓ online provision of information;
- ✓ online interaction between citizens and government;
- ✓ online engagement in the policy-making process

Your legal matters are now in order. Let's continue! To know which e-services you need, you need to know where you live.

Partnership between governments and communities results in smart actions

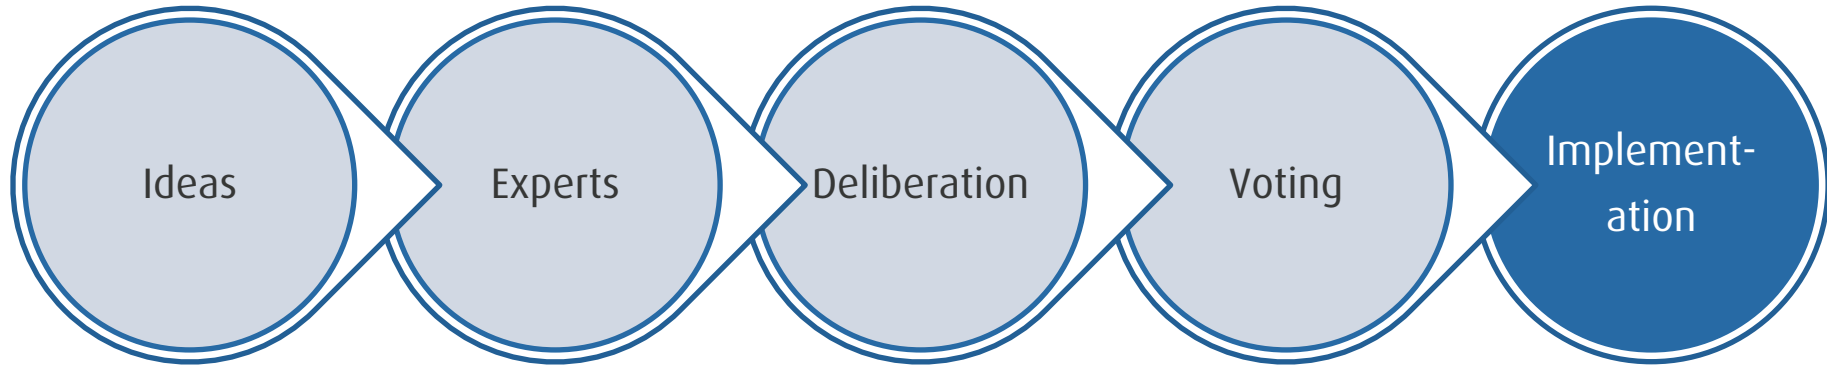

TRANSPARENCY SCHOOL

Tools for e-Democracy

- Roadmap of e-Governance and e-Participation
- Awareness-raising, capacity-building training programs
- e-Communication and (e)Engagement Strategy
- Open Government Partnership (OGP) action plans
- Participatory Budgeting
- Tools for online participation and crowd sourcing.

How?

Bike-friendly sidewalks Safe barriers on the banks of Emajõgi

New community garden in old widget factory area

Exercise-friendly school yard

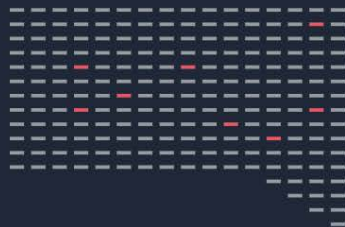

Anticor Platform

Takeaways

- E-tools are **not miraculous weapons** but technology has **great potential** for open, transparent and accountable governance
- **Start small but start NOW**
- **Adopt and re-use**
- **Engage citizens, but only when possible, needed and meaningful**
